

MYTHRI K R

AI & Data Science Engineering Student | +91 9742244431 | mythrikr88@gmail.com |
<https://www.linkedin.com/in/mythri-k-r-932377312/> | <https://github.com/Mythri-K-R>

PROFILE

AI & Data Science student with hands-on experience in full-stack web development, machine learning, and UI/UX design. Skilled in building production-ready applications. Passionate about solving practical problems using AI and modern web technologies.

EDUCATION

Bachelor of Engineering - Artificial Intelligence and Data Science | CGPA: 8.12
SDM Institute of Technology, Ujire 2022 - Present

INTERNSHIP EXPERIENCE

Software Developer Intern - Mitra Softwares, Shivamogga, Karnataka Feb 2026 – Present

- Built and deployed production-level client websites using modern full-stack technologies.
- Worked on real client projects including Nagashree School and St. Joseph Public School.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript

Frontend: React 18, Vite, Tailwind CSS, HTML, CSS

Backend & APIs: Node.js, Express.js, Flask, FastAPI, REST API, JWT Authentication

Databases: PostgreSQL, SQLite, Supabase

Tools: Git, GitHub, cPanel, Vercel, Power BI, Excel, Prompt Engineering, UI/UX

PROJECTS

PantryPal - Retail Inventory & Expiry Tracking System Feb 2026 | React 18, TypeScript, Node.js, Express.js, PostgreSQL, JWT | https://github.com/Mythri-K-R/pantrypal_new/

- Dual-portal app: retailer side for inventory/POS/analytics; customer side for pantry & expiry tracking.
- Receipt scanning via OCR (Tesseract.js) to auto-import purchased items. Deployed on Vercel.

Nagashree Connect - School Website with Admin Dashboard Feb 2025 | React 18, Tailwind CSS, PHP
<https://github.com/Mythri-K-R/nagashree-connect/> | <https://nagashreeschoolcrp.in>

- School website with admin panel for managing content, applications, and gallery.

St. Joseph Public School - Multi-page School Web Platform Mar 2026 | React 18, Tailwind CSS, Vite
<https://github.com/Mythri-K-R/st.-joseph-s-bloom/> | <https://ka476cisce.org/>

- Multi-page school website with Academics, News, Gallery, and Admin Dashboard.

GrowLink Booking - Plant Nursery Web Platform Mar 2026 | React 18, Tailwind CSS, Supabase
<https://github.com/Mythri-K-R/growlink-booking/> | <https://mythri-k-r.github.io/growlink-booking/>

- Plant browsing, cart, and booking system with WhatsApp-based customer-owner communication.

AI-Based Black Pepper Price Forecasting System Nov 2025 | Python, TensorFlow, LSTM, GRU
https://github.com/Mythri-K-R/pepper_price_project/

- Time-series LSTM & GRU models to forecast black pepper prices using APMC market data.

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Python for Data Science (NPTEL), Introduction to Machine Learning (NPTEL), Introduction to Python (Infosys Springboard), Web Technologies (Study Comrade)

Awards: Appreciation Prize - State Level Anveshana Karnataka 2026 | Top Performer - Mini-Anveshana 2024 & 2025 | Top 5 - Ideastorm 2025 | Participant - Fusion Techathon 3.0 (National Level)
